

A place to slow down. Room to gather.

Three material options / One 6 x 4 metre concept / Indicative starting prices including GST

Hardwood

From \$450/m²

24 m² example: \$10,800
Supply + install / Including GST

Treated pine

From \$325/m²

24 m² example: \$7,800
Supply + install / Including GST

Composite

From \$495/m²

24 m² example: \$11,880
Supply + install / Including GST

Photographic concept visualisations illustrate the proposed style. Material selection and site conditions affect the final result. Furniture and landscaping are excluded.

Hardwood / Coastal Platform

OUR SIGNATURE CHOICE / 24 m² CONCEPT

INDICATIVE STARTING PRICE

\$450/m²

Including GST / Supplied and installed

6 x 4 m = 24 m²
Example from \$10,800

Warm natural grain and a timeless coastal finish. Merbau is the base hardwood allowance; spotted gum and blackbutt are quoted to your selection.

CARE

Clean and recoat as needed to preserve colour and protect the timber.

Visualisation only. See package scope and site-specific quotation. Premium materials shown may vary from the base allowance.

Treated pine / Coastal Platform

A PRACTICAL STARTING POINT / 24 m² CONCEPT

INDICATIVE STARTING PRICE

\$325/m²

Including GST / Supplied and installed

6 x 4 m = 24 m²

Example from \$7,800

An economical timber option with natural character. A treated pine surface and subframe provide a versatile foundation for outdoor living.

CARE

Clean, maintain the protective coating and inspect regularly.

Visualisation only. See package scope and site-specific quotation. Premium materials shown may vary from the base allowance.

Composite / Coastal Platform

CONSIDERED, EASY-CARE LIVING / 24 m² CONCEPT

INDICATIVE STARTING PRICE

\$495/m²

Including GST / Supplied and installed

6 x 4 m = 24 m²
Example from \$11,880

A contemporary alternative with consistent colour and concealed fixings where the selected system permits. Standard capped composite allowance; premium brands quoted separately.

CARE

Routine cleaning; follow the selected manufacturer's care instructions.

Visualisation only. See package scope and site-specific quotation. Premium materials shown may vary from the base allowance.

Coastal Platform / Dimensioned concept

D01 / PLAN 1:30 AT A3 / Front elevation 1:30 / Dimensions in millimetres

EXISTING HOUSE / GLAZED DOORS CENTRED

CONCEPT DESIGN NOTES

Nominal platform height: 250 mm above level lawn.

Deck shown freestanding beside house. Junction, moisture management, ventilation and clearances require site assessment.

Structural member sizes, footing positions and connections are intentionally not specified. Confirm through a site-specific construction design.

Board widths and gaps vary with selected timber or composite system.

FRONT ELEVATION / NOMINAL 250 PLATFORM HEIGHT

Your deck / Your starting point

PRICING BASIS / INCLUSIONS / NEXT STEPS

A straightforward comparison.

Straight rectangular deck, minimum 20 m², easy access, generally level ground and a low platform up to 450 mm above ground. Includes standard footing and treated timber subframe allowances, selected boards, compatible fixings, fascia and installation. Timber pricing includes an initial protective finish.

Additional scope

Stairs, balustrades, pergolas, furniture, planting, demolition, rock excavation, major drainage, substantial ground levelling, engineering, approvals and site-specific upgrades are additional. The final specification and written quotation govern price and inclusions.

Material allowances

Hardwood base pricing uses merbau. Spotted gum and blackbutt attract a selection allowance. Composite base pricing uses a standard capped board; premium brands and colours are quoted separately. Example deck totals are 24 m² multiplied by the starting rate.
